7:03pm Meeting Called to Order

Guest Speaker: Dr. Sarah Kalivoda

Dr. Kalivoda completed her Bachelors in Animal science with Honors at the University of Nevada, Reno in 2006. She then went on to graduate from Oklahoma state University with her Doctorate of Veterinary Medicine in 2010. Soon following, she traveled to Albuquerque, New Mexico to complete her internship in 2011, which included focus in soft tissue surgery, emergency, oncology, ophthalmology and internal medicine. Dr. Sarah is heavily involved with rescue organizations and her happiest moments are when homeless animals find loving homes.

Her love for mountains, skiing and the beautiful landscape that Reno/Tahoe has to offer, led Dr. Sarah to return to the region to practice veterinary medicine in 2011. She recently joined Mountain View Animal Hospital for its distinctive and integrative medicine practices, calming atmosphere, and its determination for the highest standards in patient and client care.

She spoke to our club about Ozone therapy, age to neuter dogs, heartworm, flea and tick prevention and many other topics. She also passed out some pamphlets to the group. The Ozone therapy is a non-invasive tool that turns regular oxygen which is O₂ into O₃ for extra oxygen. This can be a holistic therapy for canine cancer. It oxygenates the liver and kidneys and increases anti-tumor factors. Canine breast cancer occurs at a rate of three times greater than breast cancer in humans. She recommends removing the ovaries when spaying to avoid breast cancer and ovarian cancer. She reported that generally she waits to neuter until the dog is 12-14 month in males and females. We had a great Q & A session with Dr. Kalivoda!
